

G.A.S. and Y.S.F. Announce New Residency Collaboration with Floating Museum

Guest Artists Space (G.A.S.) Foundation and Yinka Shonibare Foundation (Y.S.F.) are pleased to announce a new residency collaboration with nonprofit art collective **Floating Museum** through **The Burroughs Residency** in Chicago, United States. This initiative expands both organisations' commitment to supporting alumni and nurturing transnational exchange between artists, cultural practitioners, and communities across Nigeria and the United States.

Launched in 2024 by Floating Museum, The Burroughs Residency is a translocal programme inspired by the legacy of Dr. Margaret Burroughs, a poet, printmaker, activist, and advocate whose models of cultural facilitation and archiving are embedded within Chicago's cultural infrastructure. In line with Floating Museum's organizational vision of creating a "museum without walls," The Burroughs envisions a "residency without walls," that supports creatives of colour and strengthens local and global creative communities.

As part of this collaboration, G.A.S./Y.S.F. and Floating Museum selected residents to participate in an exchange programme, with each organisation responsible for supporting the artists they host. Candidates were identified through a closed call across both organisations' alumni networks and previous Burroughs programme participants, based on the strength of their practices and their alignment with the aims of the programme. Final selections were made by **Belinda Holden**, CEO of Yinka Shonibare Foundation, and **Moni Aisida**, Executive Director of Guest Artists Space Foundation, alongside **Ashwaty Chennat**, Burroughs Residency Manager, **Bianca Marks**, Deputy Director of Floating Museum and **Faheem Majeed**, Co-Director of Floating Museum.

Today, we are pleased to announce the inaugural 2026 cohort. The Burroughs residents are **Kosisochukwu Nnebe**, a conceptual artist, researcher and writer and **Phokeng Setai**, an interdisciplinary cultural practitioner; the residents joining G.A.S. are **Erika Allen**, a multidisciplinary social change artist and **Bweza Itaagi**, an urban farmer, community cultivator and horticulturist.

Kosisochukwu and Phokeng will be hosted at Dr. Burroughs' historic home in Bronzeville, where they will engage with Chicago's wider cultural ecosystem through visits, exchanges, and encounters with local practitioners and organisations. Meanwhile, Erika and Bweza will be hosted at the G.A.S. Farm House in Ikise through G.A.S.'s CULTIVATION: Art, Environment & Materiality programme, supported by funding from the Terra Foundation for American Art, where they will develop research-led and site-responsive practices in dialogue with local communities.

"Floating Museum values symbiotic partnerships that create opportunities for mutual learning, exchange, and cultural production. Our Burroughs Residency collaboration with the G.A.S. Foundation expands local networks into international ones, creating meaningful connections between artists and global communities while fostering dialogue across cultural and geographic boundaries." - **Faheem Majeed, Co-Director, Floating Museum.**

This initiative reflects G.A.S. and Y.S.F.'s ongoing commitment to supporting and engaging their alumni through international exchange, residencies, and collaborative opportunities.
